

## Database Developer (f/m/d)

AssetMetrix is Europe's leading next generation asset servicer. We offer modular outsourcing solutions for private capital investors: front-, middle- and back-office solutions for Limited Partners and General Partners.

Our services enable private capital investors to free up their own resources for making investment decisions, benefit from our secure IT system and state-of-the-art analytics, and increase in-house transparency for optimal decision-making.

Building software to support the AssetMetrix business model is a challenging but rewarding endeavor. Our solution digitizes the world of private capital and empowers our clients to make the most out of their portfolios. We achieve this with a collection of innovative digital services that are either already available on our platform or defined in our roadmap – waiting to be implemented. We are looking for database engineers like you to assist us with our sophisticated data management capabilities and architecture – a central building block of our IT landscape.

### Your tasks

- Bringing our data architecture to the next level
- Making ETL and data processing faster and more scalable
- Separating concerns while keeping up performance
- Helping to extend the data concept to different disconnected data centers
- Supporting our development teams in finding optimal data access strategies

### Your profile

- Bachelor's degree or higher in computer science, engineering or natural sciences
- MSSQL experience in development and operation – Oracle experience is a plus
- Experience in real-time- vs. Batch-optimized data architectures

## Database Developer (f/m/d)

- Ability to build up scalable data architectures
- Containerization experience in the DWH field
- Data flow debugging
- Agile work experience
- eFront and FrontScript or SAS-language affinity would be a strong plus

### Our offer

- Exciting challenge in a rapidly developing, dynamic industry
- Good development opportunities in a constantly growing and international team
- Active contribution to the success of our company
- Short communication channels
- Performance-related remuneration
- Attractive workplace in the heart of Munich

### Have we aroused your interest?

Then we look forward to receiving your complete application documents by e-mail, stating the starting date and your salary expectations:
