

Web Backend Developer (f/m/d)

AssetMetrix is Europe's leading next generation asset servicer. We offer modular outsourcing solutions for private capital investors: front-, middle- and back-office solutions for Limited Partners and General Partners.

Our services enable private capital investors to free up their own resources for making investment decisions, benefit from our secure IT system and state-of-the-art analytics, and increase in-house transparency for optimal decision-making.

Building software to support the AssetMetrix business model is a challenging but rewarding endeavor. Our solution digitizes the world of private capital and empowers our clients to make the most out of their portfolios. We achieve this with a collection of innovative digital services that are either already available on our platform or defined in our roadmap –waiting to be implemented. We are looking for **software engineers** like you to assist us and bring our roadmap forward in terms of backend web capabilities.

Your tasks

- Enhancing our RESTful APIs with new endpoints and functionality
- Planning API communications with our external frontend development team
- Implementing new financial computations for our parallel-processing framework
- Juggling data between our different data handling layers via SQL and other means

Your Profile

- Bachelor's degree or higher in computer science, engineering or natural sciences
- Sound experience with web development in Python 2 and 3 – scientific development experience is a plus
- Experience in developing RESTful APIs

Web Backend Developer (f/m/d)

- Ideally experience with Python Flask and SQLAlchemy
- Solid SQL understanding including views and stored procedures from a programmers side
- Ideally knowledgeable in parallel processing and Apache Spark
- Experience in automated document generation (e.g. PDF) is a plus
- Agile software development

Our Offer

- Exciting challenge in a rapidly developing, dynamic industry
- Good development opportunities in a constantly growing and international team
- Active contribution to the success of our company
- Short communication channels
- Performance-related remuneration
- Attractive workplace in the heart of Munich

Have we aroused your interest?

Then we look forward to receiving your complete application documents by e-mail, stating the starting date and your salary expectations:
